Information about the project “EP for Women”

EP for Women is a project being implemented within the framework of the European Parliament’s Citizens’ Engagement Actions. The main aim of the action is to reaffirm gender equality as one of the fundamental values of the European Union, and to highlight the role of the European Parliament in promoting the gender equality and women’s rights agenda across the EU and beyond.

The project activities include a series of online events involving civil society organisations other key stakeholders to promote public dialogue and citizen engagement around the key gender equality policy domains covered by the EIGE Gender Equality Index 2020. The project will also implement a social media campaign to raise public awareness on key women’s rights issues in Cyprus. <https://medinstgenderstudies.org/mexri-to-100/>
